

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Charles Lee
DOCKET NO.: 04-26027.001-R-1
PARCEL NO.: 09-12-301-014-0000

The parties of record before the Property Tax Appeal Board are Charles Lee, the appellant, by attorney Edward Larkin of Park Ridge, and the Cook County Board of Review.

The subject property consists of a 10,030 square foot parcel improved with a 48-year-old, multi-level style single-family dwelling of frame and masonry construction containing 1,212 square feet of living area located in Maine Township, Cook County. The improvement features amenities such as one full bath, one half-bath, a basement, air conditioning, and a garage.

The appellant, through counsel, appeared before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing three suggested comparable properties located in the same coded assessment neighborhood as the subject, one of which is on the same street and block as the subject. These properties consist of multi-level style single-family dwellings of frame and masonry construction from 38 to 48 years old. The comparable dwellings contain one or two full baths, basements, and have garages; additionally two have half-baths, and two have air conditioning. The comparables range in size from 1,586 to 1,795 square feet of living area and have improvement assessments ranging from \$13.57 to \$15.36 per square foot of living area. A copy of the subject's 2004 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$25,134 or \$20.74 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	6,820
IMPR.:	\$	25,134
TOTAL:	\$	31,954

Subject only to the State multiplier as applicable.

detailing two suggested comparable properties located in the same coded assessment neighborhood as the subject. The comparables consist of 48 year old, multi-level style single-family dwellings of frame and masonry construction. The comparables contain one full bath, one half-bath, a basement and a garage; one also has air conditioning. These properties contain 1,212 square feet of living area and have improvement assessments of \$20.48 and \$21.21 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The Property Tax Appeal Board finds that the parties submitted five properties as comparable to the subject. The Board finds that the submitted comparables all bear strong similarities to the subject in age, style, location, and amenities. The Board accords the board of review's comparables the most weight and accords the appellant's comparables less weight because of their slightly superior size. The properties offered by the parties have improvement assessments ranging from \$13.57 to \$21.21 per square foot of living area. The subject's per square foot improvement assessment of \$20.74 falls appropriately within the range established by these properties. After considering adjustments and the differences, particularly in size, in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
